**AMENDMENT UNDER 37 C.F.R. §1.312**

Sir:

In connection with the captioned application, Applicants have received a Notice of Allowance and Examiner's Amendment dated November 30, 2011. In the Examiner's Amendment, the Examiner requested that Applicants correct Figure 2 indicating that the valves 1-3 are properly identified as V1-V3 instead of 1-3 as currently provided. Throughout the specification, the valves are correctly identified as V1-V3. Additionally, valves 4 and 5 are also identified in the specification as V4 and V5. Subsequently, Applicants have also corrected valves 4 and 5 in Figure 2 to be correctly identified as V4 and V5.

Applicants have also corrected the indicator "29" to refer to the carbon dioxide trapping device "8", also indicated in the specification.
